

# Programmers wanted

---

Established in 1994, PIREL develops enterprise content management (ECM) software solutions. We have developed an expertise in business process optimization by helping companies manage more efficiently all their different types of documents and by assisting them in the transition from printed documents to electronic documents.

Our ECM solutions are used in many business sectors such as finance, education, insurance and distribution. Our distinguished clientele includes Metro, Desjardins, ADP (Toronto), Merrill Lynch/Bank of America (USA), Air Transat, BMO and many other companies of different sizes and industries. Our software uses up-to-date, tried and tested products such as Oracle, Microsoft, Kofax and Web ASP.Net.

At PIREL, we believe that our employees are one of our most important assets and that our continued success depends on the creativity and commitment of each team member. As such, we strive to be an excellent employer, to encourage and provide opportunities for our employees to learn and grow in their fields, and to offer a dynamic and respectful working environment.

## Why PIREL ?

- Competitive salary
- Cutting edge technologies and stimulating projects
- Benefit package
- Professional development and training
- A professional development reimbursement plan
- Discount for an inscription at a sports center
- Employees are respected and initiatives are encouraged
- Active social club
